How we work?

Cooperation Models

	Time & Material	Fixed Price	Outstaff
	For constantly developing and dynamically changing projects. Payment is made based on the actual hours spent.	For projects that have an approved concept with a clear end result. Payment is made in accordance with the agreed calendar schedule and in accordance with completed sprints or by agreement.	For companies that have their own product and IT Department, and they need to supplement it with individual specialists.
[Size of the Project]	Medium, Large, Enterprise	Small, Medium	Any
[Timeframe & Budget Flexibility]	Flexible	Fixed	Flexible
[Client's control over the process]	Significant	Medium	Full
[Development Methodology]	Agile	Waterfall	Agile / Waterfall / Kanban
[Ability to change requirements]	Changeable	Denied	Depends on the project
[Main Features of each model]	<ul style="list-style-type: none"> Working in sprints (Agile approach) and the ability to make changes at any stage; Visibility of the result at each stage; Flexible payment system (upon completion of work, weekly, monthly, quarterly). 	<ul style="list-style-type: none"> Fixed budget; Fixed scope of works; Fixed terms; Impossibility of making changes or additions after signing the contract. 	<ul style="list-style-type: none"> Experienced specialists who don't need training; Exemption from paying taxes, sick leave and holidays for the employee; Support from our CTO, who mentors and advises the hired specialist.

WHAT WE DO?

Custom Development

[STRATEGY AND CONSULTING]

- Market analysis & business strategy development;
- Technology and architecture consultations;
- System design and requirement analysis.

[SOFTWARE DEVELOPMENT]

- Project and Team management;
- Software architecture development;
- Web and Mobile app creation;
- Quality testing and validation;
- Cloud and DevOps implementation(CI/CD).

[PROTOTYPING AND DESIGN]

- Software requirements development;
- Prototyping and interface design;
- UI/UX design;
- Documentation creation.

[SUPPORT AND MAINTENANCE (LIVE-OPS)]

- Post-launch product support;
- Improve performance and reliability;
- Third-party code system maintenance.

Outstaffing

[STAFF AUGMENTATION]

Staff augmentation is a flexible outsourcing model that allows companies to hire specific professionals or skill sets to supplement their in-house teams, enhancing project capabilities without the complexities of full outsourcing.

[DEDICATED TEAM]

A dedicated team is a group of skilled professionals exclusively allocated to a specific project or client, offering a focused and collaborative approach to project development, often functioning as an extension of the client's in-house team.

Client Feedbacks

Daria Manzhura
Project Coordinator
of the World Bank

THE WORLD BANK
IBRD • IDA

The development team at Breeze Software has undertaken a monumental endeavor in conceiving, developing, and launching the State Agrarian Registry (SAR) system during a period of significant national challenges.

Thanks to the unwavering dedication and relentless efforts of the development team, the system has not only been successfully implemented but has also facilitated the disbursement of financial and technical aid to over 40,000 farmers from partner nations and international organizations, amounting to more than 2 billion UAH.

It's imperative to emphasize the remarkable level of professionalism and commitment demonstrated by the Breeze Software team. Their contributions have been instrumental in bringing the State Agrarian Registry into existence and driving its functionality.

Andrew Smal
Founder & CEO

Breeze Software has been an invaluable partner in our CRM system development journey for over three years. Their unwavering commitment to providing excellent service is a testament to their professionalism. The Project Manager's seamless communication with the development team has been a key strength, ensuring a fluid exchange of ideas and progress updates.

Our collaboration has consistently delivered on-time projects with top-tier code quality. What truly sets Breeze Software apart is their innovative thinking, alignment with the American time zone, and their consistent proposal of unique, cost-effective solutions.

We are sincerely delighted to have such dependable partners alongside us.

Let's work together!
